Placentia Stars Chapter

*"Changing Women's Lives
One Woman at a Time"*

Mission Statement

To bring together businesswomen of diverse occupations and to provide opportunities for them to help themselves and others grow personally and professionally through leadership, education, networking support and national recognition.

ABWA History

The American Business Women's Association was founded on September 22, 1949, by Hilary A. Bufton Jr. Mr. Bufton, a Kansas City businessman, saw the positive impact of working women as many joined the workforce for the first time during WWII. He, along with three businesswomen, created the ABWA as a national support network for working women, providing education, career development training and scholarships for their members. For more than a half century, the American Business Women's Association has been a significant thread woven tightly in the fabric of American history. Its unparalleled success in supporting the dream and aspirations of working women across the nation shall continue well into the future, changing women's lives for many years to come

Purpose

ABWA provides professional training and personal development through a national network of college students, working women, business owners and women in retirement. With 40,000 members and 1,200 chapters across the United States, the Association provides opportunities for working women to gain career advancement and personal growth. The unique environment created at ABWA for women to learn and practice leadership skills is one of the most important benefits of membership.
